

Technical Data

Fibreglass Mat GNM-25

GNM-25 is a 100% glass fibre mat composed of E-glass fibres in the form of a web which is mechanically needled together without chemical binders.

GNM-25 is used as a thermal insulation infill for valves jackets and exhaust mattresses, as a gasket material for industrial furnaces and for special piping applications requiring both heat resistance and flexibility.

Construction :-

Base Fabric	E-Glass
Weight	140kg/m ³
Thickness	25mm
Colour	White
Constant Working Temperature	650°C
Roll Width	1m
Roll Length	10m
